The Ultimate Ball Locker most definitely lives up to its name. This full sized ball locker is designed to hold between 28 and 30 balls and is very tough. The heavy-duty 1" powder-coated steel tubing design means this rugged unit can handle almost anything. Moving this sturdy ball locker is easy, thanks to its two large rear wheels and two-heavy-duty swivel caster wheels. The lockable-hinged lid helps ensure that balls stay in place. You'll be able to take the Ultimate Ball Locker to wherever the action may be.
