### Little Tikes Inclusive Swing Seat

The Little Tikes Inclusive Swing Seat is the perfect swing for children of varying abilities. This popular piece of accessible playground equipment makes it possible for kids with disabilities to experience the wonders of a park and its swings with their able-bodied friends. When organizations, educational institutions, and commercial establishments add inclusive playground equipment to their properties, they underscore their respect for children with disabilities and their parents. While it is important to purchase accessible playground equipment, choosing the right surfaces and safety gear can be equally essential to providing a fun play space for kids with disabilities. At AAA State of Play, we offer this accessibility-friendly Little Tikes outdoor swing as a way for organizations of all types to welcome diversity on their playgrounds, and we also carry a variety of surfacing options.

When designing an inclusive playground, safety should be at the forefront of any list of priorities. This Little Tikes outdoor swing has its own special features that can keep disabled kids out of harm's way. An optional safety harness provides an extra element of protection for the child. The safety harness lifts straight up overhead, allowing for ease of seating. The large design of the seat allows children to easily be maneuvered in and out of the seat. [\[Read More\]](#)
