Age Group: 2 to 5 years

Footprint: 5' 4" diameter x 2' 2"

Use Zone: 17' 4" x 17' 4"

Looking for something with a new twist on a classic playground favorite? The Circle Cycle is an updated version of a merry-go-round! A solid steel track allows the wheels to roll easily around as children pedal, and four- and five-seat models are available. A safe handlebar provides a place for children to hold on as they go around.

The Circle Cycle is designed for children age 2-5 years. This unit was designed for indoor and playground use, and it includes 18-inch ground stakes for mounting outdoors. The Circle Cycle is also easy to fit into a limited area, as it requires little space: The structure itself has a diameter of 5 feet 4 inches, and the required use zone for safe play has a diameter of 17 feet 4 inches.

Color options for this product include red, yellow, blue, and lime green. Each color features fun polka-dots on the center unit as an extra decoration, and you can choose either red, blue, yellow, or beige dots.

Not quite sure if this is the right merry-go-round for your play space? We have plenty of other options to choose from, including a Circle Cycle Mini Pusher and a four-seat merry-go-scooter. Or perhaps you'd prefer a traditional merry-go-round or a fun, toddler-friendly Carrington Carousel. Whatever you're looking for, our experts in play can help you find it!
