Imaginations will run wild with the U.S. Mail Truck by Infinity! Multiple riders can hop on and deliver mail around the world. The truck features a white metal frame with white plastic panels to create the mail truck look. Four wheels and two steering wheels are also included. The truck also has blue accents, giving it a similar look to a real mail truck!

The U.S. Mail Truck, intended for children ages 2 to 5, is mounted to four springs, giving children the ability to move the truck as they play. However, you can also choose a model without springs if you prefer. You can also choose either portable or permanent installation, and if you opt to install it permanently, we can provide either a surface-mount unit or an in-ground-mount unit.

This product is 69 inches long, 33 inches wide, and 37 inches high, and no assembly is required. It's constructed from sturdy steel tubing and plastic panels, and it has a Trex floor that's a unique combination of wood and plastic, giving you the best qualities of both. These materials were selected for their durability to ensure a long-lasting structure, making it suitable for outdoor commercial environments.
