Fall Height: 60"

Use Zone: 28' 5" x 31' 5"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Magma Mainstay is one hot structure. Three Right Turn Slides rush out of this unit like lava flowing down a steep volcano. Having this many slides eliminates kids waiting in line for a turn; making playtime a more cohesive and fluid experience. One slide is 3-feet tall and two slides are 5-feet tall which adds an element of choice to playing. A Gear Panel resides up above with the slides and brings interactivity to the elevated fun. On the ground, a Store Panel, Single Drum and Ship's Wheel dwells. All three, when a little creativity is used, can bring immense joy to playing children. A Snake Climber and Arch Climber create alternative entrances into the unit. The Arch Climber extends and arcs towards the playground and the Snake Climber is a vertical ascent. With so much to do, the Magma Mainstay is ideal for those in need of a long play session.
