### ADA Compliant

Children can swing around like chimps on the Monkeying Around Play System. Kids in preschool and elementary school will always find something to do from hanging on the Fan Ladder to riding down the rotationally molded plastic slides. For the slide-lovers, the Spiral Tube Slide has it all with an enclosed twist from an 8-foot deck height making it more than a mere slide and transforming it into something special and irresistible. The Wave Slide sits closer to the ground giving children an option when they crave a fast descent. The Arched Overhead Swinging Ring Ladder and the Overhead 3-Wheel Swing Ladder provide the children with elevated points to swing to and fro from. Both bring a different way of playing while hanging. This unit provides the gift of fun to all who play upon it. The Monkeying Around Play System brings a jungle to you.
