**Fall Height:** 84"

**Use Zone:** 28' 9" x 37' 7"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Pylon Peak Play System is an excursion from the ground to the 5-foot Right Turn Slide and Double Slide. Built in activities are sprinkled throughout this unit and are sure to keep children engaged for long bouts of time. Wherever children decide to start, they will be faced with various ways to have fun; from banging out a new song on the Single Drum to scaling up the Sea Creature Climber by holding onto the rotationally molded plastic critters and everything in between. This structure has three different entrances that make it even more accessible. A Vertical Ladder joins an overhead Straight Swinging Ring Ladder as a unique way to explore. Steel rings provide a new way for children to be mobile as they swing across from ring to ring. The fun culminates at the peak of the system. Two humongous slides pour children out onto the ground. The Pylon Peak Play System is as fun as it is convenient.
