COMPLIES With:

ASTM F1487-17

CPSC PUB #325

Children will sail the seven seas at the front of the Free Play Pirate Bow Panel. Mixing the fun of pirate stories with a lighthearted cartoon appearance, kids will be ready to make a story all their own. On the front of the bow, two anchors are molded to hang askew away from the centerline and simply curled figurehead. On either side, portholes provide children with space to look or crawl through. The interior of the bow continues the theme with its simulated wood interior with a high rail. The powder coat painted steel posts continue the look while providing stability for the entire piece. Color the steel and rotationally molded plastic of this nautical unit to match any fantasy or whim. Help children's imaginations set sail for pirates, a relaxing vacation or the secret mission to a hidden world on the Free Play Pirate Bow Panel.
