**Fall Height:** 48"

**Use Zone:** 30' 6" x 36' 5"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Port Side Play System will let kids sail the seven seas of their imagination. Creativity is never in short supply with this exciting structure. A Ship's Bow and two Ship's Wheels help transport children straight into a stormy ocean as they play. A Pod Climber provides a way to scale the structure quickly and efficiently to get to whatever is happening on the upper decks as fast as possible. Children can announce their ship's arrival to land with the Single Drum. Picking which slides to ride will always be a question for would-be riders. The Right Turn Slide and Tube Slide are only inches apart; giving children a tough decision at the peak of the unit. When they choose, they will splash into ocean waters or upon a deserted beach. Friends will be made and games played on the wide, open upper deck of the ship leading children to hoist the sails, find the headwind and don their pirate hats because the Port Side Play System is ready to depart.
