Use Zone: 42' 4" x 49' 8"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Un-bear-ably fun, the Grizzly Grasslands Play System is the perfect structure for elementary school aged children. The system is bursting with jungle themed hideaways with the Inclined Tube and Tube Bridge with Window. When children are ready to come out of their hideouts and play, the U-shaped structure has more than enough fun to go around. A Leaf Climber guides children up the beanstalk to a warm-up 3-feet Straight Slide. Once they land, in front of them is a monkey's climbing dream with the Net Climber. Those that are more wary can stay grounded on the Bench Panel or try their hand at the jungle beat on the Bongos. They'll be tempted to crawl up an elephant on the Jungle Climber to explore the large number of play panels creating a safe barrier around the top levels. Children will play games at the Plinko Panel or work on their arithmetic at the Math Panel. No matter what adventure kids head out on, the Grizzly Grasslands Play System promises that it will be a fun one. Breathe even more energy into this structure by choosing any of our custom colors to create an Amazon worthy playground.
