COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Beeswax Blossom Play System generates a lot of buzz. Its stellar design has something to offer kids in kindergarten on up. Each side of this structure comes with an activity to interact with. Kids who like to swing to and fro will not be disappointed with the Overhead Swinging Ring Ladder. Its design allows for children to glide from ring to the next with ease; turning exercise into fun time. The Beeswax Blossom Play System has two different slides to choose from; the Straight Slide and if you want to race a buddy, the Double Wave Slide. Both deliver speed and excitement during every use. Kids can take a break from the action by playing with the activities on the ground level. The Ship's Wheel is an ideal catalyst for imaginative pretend time that can be accompanied to the sound of the Single Drum to synchronize their invisible crew members rows. This interesting play system will turn kids into busy little bees.
