COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Run up, slide down and repeat. The Mack's Mangrove Play System is fitting for slide enthusiasts. Two slides snake their way out of the unit, assuredly grabbing the attention of onlookers and not letting go. The Curved Tube Slide is an obvious highlight with its enclosed, tunnel-like design. With a little imagination, kids can transform it into a water canal ride through a dingy cave or a plunge into a secret lair. Color variations are available to make this slide as personal as it can be. The other slide, the Right Turn Slide, is a petite alternative that doesn't skimp on excitement. It is more convenient for skittish users. The Mack's Mangrove Play System comes with many activities that require no sliding. A Single Drum, Car Panel, Store Panel and Bench Panel enhance the ground level experience tremendously. Overall, this structure is bursting with fun to be had.
