### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

The Gary Gecko's Greenhouse Play System is ready to come alive with the help of thrill-seeking children. Its welcoming design entices kids into seeing what all can be experienced. This structure's layout is reminiscent of a gecko with the slides extending out like limbs; keeping kids enthralled and nudging them towards imaginative play. The fun begins on the ground level with activities like the Bench Panel and Pull Up Bar. The Sea Creature Climber and Vertical Ladder will be a child's entrance into the upper-level; keeping the fun going along the way. Once above, the choosing starts. Three different slides are readily available. The Right Turn Slide, Double Slide and Straight Slide make getting to the ground a memorable and exciting experience. The Gear Panel is an interactive activity that provides an alternate way to have fun if sliding isn't a kids' preference. There is something for everyone on the Gary Gecko's Greenhouse Play System.
