ADA Compliant

Playtime on the Tot Go Round can be a time for learning and developing the mind and body. This unit's circular layout bolsters critical social skills. Seven different panels make up the entirety of this structure; leaving no room for uninterestedness among players. Kids can flex their creative muscles when using the Store Panel and Car Panel. Owning a thriving business and operating a vehicle are both fantasies children adore putting into practice. For more hands on play, the Gear Panel, Tic Tac Toe Panel and Drum Panel will sufficiently work both fine and gross motor skills. The Gear Panel is an interactive collage of colorful, rotating plastic pieces. The Tic Tac Toe Panel brings the classic game into a playground setting which will cultivate healthy friendships and rivalries. The Tot Go Round is an inclusive, entertaining and educational unit that will keep it's players enthralled and busy playing.
