COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

The Return of Recess Play System will keep kids coming back for more. The long layout of this unit is just begging to be explored by the curious-minded. There are many advantages to this; including many entry points, a clear objective and prompting children to explore. From top to bottom, the Return of Recess Play System is lined with activities for children to enjoy. Four slides are the prominent highlight of this astonishing unit. Two Double Slides sit 3-feet tall and prevent loneliness by allowing another rider to join in. At the 4-foot mark, two Straight Slides offer a higher drop with no deviations. The ground has its fair share of activities with a Bench Panel for relaxing, a Ship's Wheel for sailing, a Single Drum for setting the pace and Bongos for some more funky sounds. Boredom is the only thing unwelcome on this structure.
