Use Zone: 18' 4" x 25'

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

If you've ever wondered what fun looks like, catch a glimpse with the Color of Fun Play System. This is playground structure that is designed for younger children, from toddler up to kindergarten. With this in mind it is sure to attract younger children who may be too intimidated by larger playgrounds with older kids. The small size makes it easier for little legs and children who may have walking limitations to go up. It provides the maximum amount of fun in a small, safe and contained space. Kids will love to glide down the Right Turn Slide. It also has a Pea Pod Climber to work out little leg muscles. The Gear Panel will aid in sensory play and the Ship's Wheel will encourage creative minds through imagination. Despite the fun look of this structure, you can define your own colors of fun through customizing your own structure.
