**Use Zone:** 31' 2" x 25' 5"

### COMPLIES With:

ASTM F1487-17

CPSC PUB #325

### ADA Compliant

From The Top Play System was designed to be explored. Ideal for kids graduating preschool onwards, this unit is the perfect entry point for playground newcomers. This structure has activities attached to its perimeter created to entertain, if staying on the ground is a child's preference. These include a Rain Wheel and Bongos that both make sound experimentation exciting and interactive. Climbing to the top of this structure is a major part of the fun. The Spiral Climber and Sea Creature Climber guide children to the upper level while keeping things lively. The second level is where the kid favorites can be found. Two slides gently slope towards the ground; keeping the fun fast-paced and enjoyable for those indulging in the ride down. The From The Top Play System is designed to keep children's rapt attention with a series of safe activities that intentionally teach a series of motor, social and physical skills. The materials, rotationally molded plastic and powder coat painted galvanized steel, protect your dual investment in the playground equipment and the future leaders in your community.
