The Rosewood Plantation Play System is a sliding paradise. With three Straight Slides to choose from, kids will not be able to get enough of it. Each slide sends children in a different direction. If they want to be close to a certain ground panel or climber, they can pick their preferred exit. One Straight Slide is 4-feet tall and is perfect for sliding newbies. The other two stand at 5-feet each and are easily accessible via Pea Pod Climber. They zoom kids out near a Store Panel. This panel can be used in many creative ways. Children can open up a pretend store that sells candy, toys and cake or make it into a house. Once a kid's legs grow tired of running up the structure and sliding down, the Bench Panel will become more and more appealing. The Rosewood Plantation Play System is a master-class playground.
