Use Zone: No use zone required.

Children are always intrigued by the every day activities that their parents take part in. Ordinary activities like going to the grocery store, filling up at the gas station, and mailing letters can seem fascinating to kids. The Trike Gas Station can be placed along your trike riding path, or anywhere on the playground, to foster imaginative play. Children will love pulling up to the gas pump and filling up before continuing on their journey. The powder coated steel tube frame features rounded edges for safety. The UV protected panel features details that create the look of a real gas pump. The Trike Gas Station is intended to be used by children ages 2 to 12 years old.
