Encourage an active lifestyle with the Spring Fire Truck. Two children can sit in the front seat of this playground fire truck and bounce their way to saving lives! Two steering wheels let each child steer during play. The words "Fire Dept." are proudly displayed across the top and sides of the unit, with fire helmet details on the front. Four wheels and a ladder detail complete the look of the Spring Fire Truck. The floor is a composite deck, meaning there is no wood and no splinters. There is also no maintenance. The safety rolled edges of the frame prevent injury. The Spring Fire Truck is designed for ages 2 to 12 years old.
