- Ground activities provide fun for even the most timid
- Ease of use is ideal for younger children and playground newcomers

Age Group: 2 to 5 years

Capacity: 21-31

Fall Height: 36"

Use Zone: 25' 2" x 32' 7"

COMPLIES With:

ASTM F1487-17

CPSC PUB #325

ADA Compliant

Designed for younger kids, the Grassy Branch Play System is a great introduction into the world of play. If a kid is still new to heights, the ground has a couple activities to get the fun started. The Rain Wheel gives a tiny titan the control over the skies while their friends frantically steer the entire rig with the Ship's Wheel. Once children reach the second level, the slides open new horizons to them arching down like rainbows between two clouds. The Straight Slide and Right Turn Slide give children the option between a fast direct route to the ground or a sweeping slowed entrance. An under lauded benefit of having two slides is that it decreases line times and keeps the fun flowing. A Gear Panel provides an interactive visual experience from the top deck before their mad descent to the boiler room or maintenance bay. The Inverted Arch Ladder and Vertical Ladder provide a handy path back to the upper decks of the vessel. However, the simplicity of the Grassy Branch Play System is where it shines brightest with its easy access allowing a horde of children to build up their courage while everyone feels included.
