

Square Standard-Duty Recycled Plastic Receptacle

MSRP \$505.00

SALE \$445.00

Highlights:

- Available in three size options
- Top can be removed to access liner
- Standard colors cedar, gray, and green
- Made with environmentally-friendly Resinwood slats

The Square Standard-Duty Recycled Plastic Receptacle by Frog Furnishings will help keep high traffic areas trash-free, by providing a place for people with waste to dispose of it as they pass by. It is made from twenty-eight 1-inch x 4-inch Resinwood slats and a recycled plastic structure, making it perfect for organizations and parks that are environmentally conscious. That is because Resinwood is made of recycled material that is molded together to create the slats of the structure. The top, which is made from recycled plastic, can be removed to access the liner. The receptacle is available in cedar, gray or green. Custom colors are available for quantity orders. The Square Standard-Duty Recycled Plastic Receptacle is available in a 20-gallon model, a 32-gallon model, and a 55-gallon model. It is also available with heavy-duty zinc, covered hardware. The liner is not include.
