The Round Standard-Duty Recycled Plastic Receptacle by Frog Furnishings is a great addition to any high traffic area that sees a lot of trash needing to be disposed. This receptacle provides a place for trash to be disposed, keeping your area nice and clean. The slated receptacle is not just noticeable, it is a statement on your venue's environmental consciousness as it is made of recycled materials. Each plank is Frog Furnishings' signature Resinwood material. Resinwood is made from a combination of recycled plastics that have been thoroughly cleaned to make a strong, evenly colored and scratch resistant plank. You can count on this bench to last for years as it is low maintenance and resistant to rust and mold. The entire receptacle is ringed with such a material allowing it to stay nice looking for years to come.
