

## Regal Square Portable Table

**MSRP \$1,569.00**

**SALE \$1,334.00**

### Highlights:

- Made of sturdy, durable metal
- Rounded corners help prevent accidental injuries
- Customize the colors to match your decor
- Textured polyethylene surfaces and powder coated frame

The Regal Square Portable Table by Webcoat is a solidly constructed outdoor furniture unit purchasable as a 3 or a 4 seat model. This tough commercial-grade item is made of 1 and 5/8-inch metal framework beneath an expanded metal 46-inch square tabletop. Both the table and backless bench seats permit cooling airflow thanks to the diamond-shaped holes of the metal lattices. The frame is finished with a powder coat paint and the seats and table are coated in a layer of textured polyethylene. Both finishes are proven to help retain their bright colors to reduce the likelihood of rapid deterioration due to rusting or harsh weather exposure. And if you'd prefer colors other than what's seen here, please reach out to a salesperson to learn more about other options. This unit's portability allows easy rearrangement for environments that frequently require different layouts, like church grounds, youth centers, classrooms, or gymnasium interiors. The unit's pre-drilled holes in the frame also permit surface mounting equipment (surface mounting hardware sold separately).
