

Classic Square Portable Table

MSRP \$2,466.00

SALE \$2,097.00

Highlights:

- Sloped seat edges provide comfortable seating
- Lightweight and portable table mount allows for excellent mobility
- Long-lasting powder coat and polyethylene finishes keep it in pristine condition
- Diamond shaped perforations allow airflow to keep guests cool

The Classic Square Portable Table by Webcoat is designed to provide plenty of seating options for all of your outdoor dining needs. Each seating arrangement is available with a framework of 1-5/8-inches to provide needed support. The frame is made of steel that can be customized to your liking with a selection of different powder coating color options. Thanks to the contoured shape of the seats, guests will be able to sit comfortably for hours while they rest and enjoy each other's company. The tabletop has a pre-drilled hole in the center for umbrella placement that will make the day cooler and even more enjoyable. The portable base of the table allows it to easily be moved from one place to another, especially because of its lightweight design. Its color-customizable textured polyethylene coating on the tabletop and seats not only gives it a bright and long-lasting color, but it also protects it from the weather elements and keeps it from getting uncomfortably hot or cold.
