SALE \$1,290.00

Highlights:

- Strong 1 and 5/8-inch metal frame
- Colors are customizable
- Textured polyethylene seats and tabletop and powder coated frame
- 46-inch round top that features an umbrella port

The Regal Round Portable Table by Webcoat is a strong and durable commercial-grade furniture unit built of a 1 5/8-inch metal frame featuring diamond-shaped expanded metal on the table and bench surfaces. The round design makes for a seating solution that's more easily placed in some spaces than rectangular or square tables. The shaping of the metal on the curved backless bench seats and the tabletop permits airflow that both cools occupants and minimizes maintenance after rainy days. The top of the table features an umbrella port for anyone wanting to add some overhead shading. This unit is purchasable as a 3 or 4 seat version. The frame is finished with a powder coat paint application and a textured polyethylene covering on the seats and table surface. The colors of both areas are customizable. Please call or email AAA State of Play to discuss what options are currently available.
