Life is a picnic, and everyone should enjoy it. With this ADA Accessible Innovated Rectangular Portable Table by Webcoat, your outdoor location will transform into a place for fun, togetherness, and community. This Innovated Rectangular Table immediately ups your site's game, making any outdoor eating area inclusive and comfortable. This perforated table features 5/8-inch holes that allow cooling air to flow through, which adds to user comfort while also making the furniture lightweight for times you need to rearrange the space. This piece's unique design incorporates overhangs to permit handicap accessibility. Each overhang has 24-inches of clearance to allow a wheelchair user to sit right against the table edge without any awkward framework underneath. This table comes in 6 and 8-foot lengths and with one or two overhangs. All of the tables boast vibrant customizable colors with a thermoplastic coating on the seat and tabletop and a finish of powder coating on the framework. These applications help keep your ADA Accessible Innovated Rectangular Portable Table fade-resistant and stylish.
