

## Regal with Back Octagon Portable Table

**MSRP \$2,608.00**

**SALE \$2,217.00**

### Highlights:

- Ease of mobility due to its portable frame
- Seat backs provide comfortable seating
- Powder and polyethylene coats enhance durability
- All-in-one table and seating increases portability
- Umbrella hole in the center of the top offers a place for shade

If your outdoor eating or sitting areas tend to invite others to kick back and stay awhile, all of your guests will love the comfort of the Regal with Back Octagon Portable Table by Webcoat. This octagon shaped table features four attached seats with separately attached backs to create a comfortable seating arrangement. The seats and table are made from expanded 3/4-inch #9 expanded metal to provide some of the highest levels of durability you can find in outdoor picnic tables. The portable style allows you to move the table around at your whim so you do not have to be locked into a specific seating arrangement. Both the seats and tabletop are covered in a textured polyethylene coating to protect the metal and keep the table looking brand new. You can choose from various colors for the seats and tabletop depending on your preferences. You may also choose from a mix of powder-coated frame colors to complement the rest of the unit.
