Physical activities practically require this Innovated Style Park Bench With Back by Webcoat due to its breezy and lightweight design. This bench is a must-have for locker rooms, sports fields, tennis courts, and other outside areas. It is an ideal choice due to its small hole perforations as it protects against the sweaty and dirty smells that occur with intense physical activities. Infinity Innovated styles, which means it has a small perforation pattern in the seats for a smoother look and feel. This bench is made of punched steel which will last for the years to come. It has a 17-inch height making it an accessible size for people of most ages and sizes. Choose the length of your bench with options ranging between 6 to 15-feet. You can choose from a surface or in-ground mount or a portable option for more flexibility. Choose from a variety of color coating options that will make your bench stand out while protecting against rust and degradation.
