

Modern Casino Style Park Bench

MSRP \$1,275.00

SALE \$1,084.00

Highlights:

- Modern design suits many contemporary locations
- Coordinate the frame and bench colors
- Comfortable curved back and armrests
- Leg bases also permit surface mounting (not sold with hardware)

The Modern Casino Style Park Bench by Webcoat is designed with strong clean lines to create a pleasing, modern appearance that looks great anywhere. The expanded metal surface features diamond-shaped interlacing for a romantic feel. This heavy-duty textured polyethylene seat has 1- 1/2-inch square legs and arms. The contoured design creates a comfortable seating option. This helps to protect the metal from rusting, chipping, and fading due to UV exposure. Together, these parts work together to create a strong commercial-grade outdoor furniture unit that can stand up to daily use with ease. There is a diverse set of color options available, allowing you to mix and match hues to create a customized look to match your location's decor. This bench is available in a four-foot length and can be used as a portable unit or it can be surface mounted (not sold with surface mounting hardware).
