- Contoured back is comfortable on the spine
- Armrests can also function as dividers with add-on
- Connect benches with add-ons for even more length

If you want to give your park a priceless, tasteful, classic look that draws in your local visitors, no bench can provide that like the Classic Style Park Bench by Webcoat. Designed with the classic rolled look, the bench provides comfort as well as aesthetic charm. Beyond that, the bench is designed to be easy to clean, helping you keep your open space looking great even after significant use. It is made of the tough metal that benches need to weather regular use throughout the year and powder coated to keep the paint looking great for years to come, this bench isn't just decorative: it's designed for use. If you have events that bring a lot of people, you can choose from three sizes of the Classic Style Park Bench to best accommodate the groups: 4-feet, 5-feet, or 6-feet. You can choose the bench or the add-on, which connects to an already existing bench to add additional seating.
