SALE \$879.00

Highlights:

- Features 4-inch square frame
- 17-inch seat height from the ground
- Small hole perforations enable airflow
- Choose length option of your preference

This Innovated Style Square Frame Park Bench by Webcoat features the Innovated style planks and back for superior strength and great visual appeal. This bench provides a superior space-saving solution with its back-to-back seating option that maximizes seating capacity while keeping a small size. The small holes punched into heavy steel provide a smoother surface, making it a comfortable option for long-term seating as well. The bench features a square frame, giving it a distinctive look that everyone is sure to love. To further add to the beauty and creativity of the design, the planks and frames are available in a broad range of textured polyethylene coatings to help you incorporate your seating into your overall decor. This bench is available in a six-foot length, as well as an eight-foot length to provide plenty of seating. However, you also have the double bench option that has two benches placed back to back. Available in-ground mounting or surface mounting options to best fit with the functionality of your location.
