

Regal Players Style Park Bench

MSRP \$522.00

SALE \$444.00

Highlights:

- Resilient construction that can handle regular daily use
- 17-inch seat height from the ground
- Multiple lengths to suit your location's needs
- Backless design opens up placement options

The Regal Players Style Park Bench by Webcoat is a backless commercial-grade furniture unit that is suitable for indoor or outdoor locations. Available in a multitude of lengths, this bench is an ideal seating solution for those looking to enhance gyms, restaurant waiting areas, school hallways, or shopping plazas. The backless design allows occupants to sit down at multiple angles, which permits greater placement versatility, especially with its 10-inch width. The expanded metal planking permits airflow in order to keep sitters cool and accelerate drying when used for outdoor settings that experience rain. The tough framework is built of 2 and $\frac{3}{8}$ -inch metal that can handle habitual use. The frame is finished with a powder coat paint application and the seat is covered in textured polyethylene coating. The colors can be adjusted to better match your design needs; just speak to a AAA State of Play salesperson to learn more. The Regal Players Style Park Bench is purchasable as a portable unit or as an in-ground or surface mounting version.
