

ADA Accessible Regal Square Pedestal Table

MSRP \$2,038.00

SALE \$1,733.00

Highlights:

- Wheelchair inclusive design has an elongated tabletop
- Sturdy and supportive 4-inch frame
- Stylish and functional design of Regal series
- Surface, in-ground, or portable mounting options offered for your venue

The ADA Accessible Regal Square Pedestal Table by Webcoat is a square tabletop mounted on a 4-inch steel pedestal frame to provide long-lasting durability without sacrificing style. All attached seats are supported with frame supports that run from the pedestal base and branch out to create the illusion of floating seats. This is an ADA accessible table, allowing greater comfort for those requiring altered seating arrangements. The Regal design features a larger, open hole pattern that adds a hint of a modern look to your recreation areas. Additionally, this allows water and liquids to trickle through, keeping the table low maintenance. This table can be purchased with three attached seats requiring your choice of surface or in-ground mounting. This table is also available in a portable option to allow you the greatest versatility in managing your seating options for all of your guests and visitors. The tabletop and seats are covered in a textured polyethylene coat while the frame features a powder coat finish. Both finishes have a diverse color palette for you to personalize and are designed to withstand prolonged sunlight exposure.
