

ADA Accessible Classic Square WEB Table

MSRP \$2,519.00

SALE \$2,142.00

Highlights:

- Lengthened 57-inch tabletop grants wheelchair accessibility
- Three curved seats add comfortability
- Sleek perforated tabletop with slatted edge design creates a modern look
- Hole in the center of the tabletop allows room for an umbrella

If you are looking to create a stylish space that will remain fashionable and trendy over time, the ADA Accessible Classic Square WEB Table is a great choice. This table is specially designed for inclusivity with three attached seats and seat opening to provide access for those in wheelchairs. The table features the strong WEB frame design which includes a 4-inch square center post on a 57-inch tabletop. This table features Webcoat's classic metal design that adds an avant-garde look. The tabletop and seats feature a textured polyethylene coat while the frame is covered in a powder coat finish. You can create your very own look and style by mixing and matching with a wealth of color options for both finishes. No matter which colors you choose, the application methods and materials ensure that your tables will stand up to Mother Nature for many years, without showing signs of aging or distress. This table is available with surface or in-ground mounts for both concrete and other hard surfaces as well as grassy areas, respectively, to provide the stability you need.
