

3 Hoop Bicycle Rack

MSRP \$462.00

SALE \$389.00

Highlights:

- Three places for bicycles
- Contrasting gray and black
- Modern look that fits most outdoor areas
- Available either as an in-ground or surface mount

Bicycles are experiencing a resurgence in popularity and with more people riding them, providing places to park them becomes important. The 3 Hoop Bicycle Rack from SportPlay is a simple way to add a bit of bicycle parking that is relatively out of the way. The rack is so simple it will easily blend into at schools, parks, private business, and any other area that needs bicycle racks. The central post is a 5-inch galvanized steel post with smaller metal hoops that round away from it. The three hoops provide enough space for three bicycles to be locked up securely. The top of the post is capped off to keep water from finding its way inside. The rounded cap creates a safe edge-less surface. The post is designed to handle heavy use in high traffic areas over a long period of time.

For the same aesthetic but with only two hoops, take a look at our 2 Hoop Bicycle Rack.
