

Regal Square WEB Table

MSRP \$1,818.00

SALE \$1,546.00

Highlights:

- Rounded corners offer added safety
- Available as in-ground or surface mounting versions
- Customize the colors of the powder coat and thermoplastic coatings
- 46-inch square tabletop features an umbrella port to add shade

This Regal Square WEB Table by Webcoat features a 46-inch tabletop and is available in a wide range of colors to provide a great fit for any existing theme at your outdoor location. The tough metal framework undergirding the table and each seat provides durable support that will prevent the unit from wobbling or dipping, even after long-term use. The seats and table surface feature heavy-duty #9 expanded steel. The 2-3/8-inch steel frame is powder coat painted and the table and seats are finished with a layering of textured polyethylene. These applications help keep this commercial-grade furniture looking attractive and bright by preventing cracking, rusting, chipping, or peeling, even after years of exposure to sun, wind and rain. This table is available with three or four seats and can be purchased as an in-ground or surface mount version. The in-ground mount is ideal for installing units into grassy, natural dirt ground. And a surface mount would match well with sites installing tables onto artificial ground, like concrete. If you'd prefer colors other than what's shown here, please contact us via phone or email to discuss currently available alternate colors and whether there are any possible lead times.
