Highlights:

- Extended tabletop allows for wheelchair usage
- Strong, heavy duty frame that will ensure long-term use
- Hexagonal perforations provide a sporty and inviting look
- Powder and textured polyethylene coats provide a durable finish

The ADA Accessible Regal Octagon WEB Table by Webcoat is an inclusive piece that provides seating for meals, crafts, or socialization. This version of the Regal series is ADA accessible and available with three attached seats and one open ledge. The tabletop is extended to measure 57-inches long, providing ample room for wheelchair users to join in on the fun. The table can be either in-ground or surface mounted, leaving you to choose the best option for your outdoor sitting or eating area. The WEB frame features a 4-inch central post with 2-3/8-inch metal arms to create a robust and sturdy foundation. It is powder-coated to create a durable finish. The table and seats are made from strong expanded #9 metal and are coated in a textured polyethylene to protect it. Customize the table to fit your venue by choosing from a diverse assortment of colors for both the powder-coated frame and textured polyethylene tabletop and seats.
