

ADA Accessible Classic Square Pedestal Table

MSRP \$2,315.00

SALE \$1,968.00

Highlights:

- Perforated top increases airflow and is simple to clean
- Solid and sturdy 4-inch central pedestal post
- Elongated tabletop facilitates wheelchair access
- Choose an in-ground, surface, or portable mount for your venue

This ADA Accessible Classic Square Pedestal Table features a traditional square shape that is anything but boring. The 57-inch tabletop has a rolled edge that abruptly morphs into an open rib pattern to create a bold, unique design. It has a hole in the center of the tabletop to fit an umbrella for added shade. The seats also have a ribbed, molded seating area to add to the overall beauty, charm, and comfort of the unit. The table is supported on a 4-inch-square steel pedestal and the seats are attached with steel supports to provide durable, safe seating. This ADA Accessible table is available with three attached seats in either an in-ground mounting or surface mounting option. A portable option is available for those who need to move seating around as needed. The frame features a powder coat finish to protect the metal while the tabletop and seats are covered in textured polyethylene. A wide selection of color hues are available for both finishes to match your environment.
