

Innovated Octagon Pedestal Table

MSRP \$2,106.00

SALE \$1,791.00

Highlights:

- Thick frame creates a sturdy foundation
- Available with 2, 3, or 4 seats to fit your needs
- Umbrella hole on tabletop surface offers a place to add shade
- Sloping rounded edges create comfortable seating

The Innovated Octagon Pedestal Table by Webcoat features a square 4-inch center post with 2-7/8-inch arms to provide superior strength under frequent use. The heavy-duty punched steel seating and table portions feature the Innovated small hole design with rounded corners. This creates a smoother overall appearance on the 46-inch surface, making it a much more comfortable choice for areas where activities other than eating occur. This also makes it easier to clean and makes maintenance a breeze. The table is available with two, three, or four attached seats that are elevated by support arms that branch out from the pedestal frame to create an interesting look. All seat styles are available as surface mount or in-ground mount. With all these options, plus your choice of colors and coatings, this table will quickly become a central piece in your park, school, or outside area.
