- Elongated tabletop offers room for wheelchair access
- Hole in center of the tabletop offers room for an umbrella
- Rolled seat edges and contoured benches create comfortable seating
- Powder and textured polyethylene coating provide a lasting finish
- Variety of color options allow for unique customization

If you are looking for picnic tables that provide a modern and updated look then you will love the rolled edges and diamond-shaped perforations of this ADA Accessible Rolled Octagon Pedestal Table. The table is mounted on a 4-inch center post and 2-7/8-inch arms that provide plenty of support for the table and patrons. The sturdy metal ensures that the seats and table can stand up to frequent use with no problems. The table is available with your choice of two or three attached seats and features an extended tabletop to provide room for wheelchair users to join the table. Surface mounting is available for concrete surfaces while in-ground mounting hardware is ideal for placing the table in soil. All tables are available in numerous textured polyethylene colors that allow you to incorporate your own unique style and design into your recreational areas. You also have your choice of powder coating colors for the frame to create greater visual appeal.
