

Rolled Octagon Pedestal Table

MSRP \$1,883.00

SALE \$1,601.00

Highlights:

- Choose from a 4, 3, or 2 seat table to fit your needs
- Contoured seats and rolled edges provide comfortable seating
- Powder and polyethylene coats extend durability
- Expanded metal facilitates airflow to keep guests cool

This Rolled Octagon Pedestal Table by Webcoat is mounted on a 4-inch central post with 2-7/8-inch arms and features rolled edges for a fun and playful look. There are 4, 3, and 2-seat options to fit your seating needs. All of these options ensure you will have plenty of seating arrangements available, even if you are working with a somewhat small space or an oddly shaped area. A 3 or 2-seat table can be placed along a wall to conserve space. The curved shape of the seats ensures that this will be comfortable for hours of sitting. These tabletops and seats are made from tough metal finished with a textured polyethylene coating to protect it. All color options, including the powder coat used for the frame, are designed to resist damage due to weather exposure so your investment stays looking great for years. A diverse set of color options are available for both the powder and polyethylene coats so you can match it with your venue. The Rolled Octagon Pedestal Table is available with in-ground mount to position it in soil or with a surface mount to place it on concrete or other hard surfaces.
