

Surface Mount Cover (set of 2)

MSRP \$88.40

SALE \$76.00

Highlights:

- Covers mounting hardware
- Can be matched to your mount color
- Fits Heavy and Standard Frame size
- Two surface mount covers in an order

These Surface Mount Covers by Webcoat are available in sets of two and are designed to work with other Webcoat picnic tables and benches. The covers are built to envelop the mounting hardware used on tables and benches to protect them from moving or vandalism. Heavy and Extra-Heavy versions are available to fit your frame. A two-piece design allows the covers to wrap around the mount. This makes it easy to install and take off. In most cases, each piece of outdoor furniture will require at least two surface mount covers to hide all visible mounting hardware. If you have used more than this on your items, you may require an additional set to cover everything. The surface mount covers are constructed from aluminum and feature a powder coat finish to protect against disfigurement. Select from a wide array of colors to match your table or bench. These covers help resist damage to hardware, add aesthetic value, and assist with preventing vandalism or theft.
