Nobody can turn down the fun of a slide and it is even more fun when it's in an unusual sliding setting like indoors. The 13-feet Deck Height Spiral Tube Slide - Slide and Supports Only can be installed indoors or outdoors making adventures or even just heading downstairs from an upper level something to smile about. Like all of our products, the tube slide is a commercial grade piece of equipment making it usable in public settings but also making extremely durable for those that would like to use it privately or even in their own home. When selecting a spot for the slide, it's important to bear in mind what you're trying to match it with because it will be there for a long time. It comes in a spectrum of colors for both the rotationally molded plastic and powder coat painted galvanized steel posts. Additionally, the plastic can be ordered in clear to add transparency to play time.
