

Rubber Mulch 2,000 lb (50 Single 40 lb Bags)

MSRP \$599.00

SALE \$499.00

Highlights:

- Meets ASTM standard for ADA accessibility
- 13 pounds covers one square foot at a 6-inch depth prior to compaction
- IPEMA certified

Choose rubber mulch as your commercial grade loose fill playground surface for these benefits and more:

- No decomposition or crumbling
- No dust or slippery effect
- Does not blow or wash away in normal weather events
- Non-toxic paint lasts years of vibrant color

The surface is intended for use in conjunction with some type of border or containment system such as rubber curbs. The individual bags are a great option for replacement mulch orders as it allows you to better spot replace small areas without the hassle of shoveling and wheel barreling from a Super Sack. Choose from black (unpainted) or one of five standard colors. The mulch is made from shredded tires and is tested and approved for use on public playgrounds. The mulch meets and exceeds ASTM requirements for use on public playgrounds and is IPEMA certified, which is the main testing agency for equipment and surfacing intended for public playground use. The 40-pound bags are stacked 50 to a pallet. If you need more or less bags please contact a AAA State of Play playground specialist for assistance with your request.

Due to the way that our surfacing products are shipped and manufactured, ALL MULCH SALES ARE FINAL. Rubber mulch cannot be refunded, even if reassembled into a functional automobile tire.
