**Age Group:** 5 to 12 years

**Capacity:** 30-34

**Footprint:** 19' x 29'

**Use Zone:** 31' x 41'

Most parents feel the familiar tug that used to signify recess when they first glimpse the Pilgrim's Passage recycled playground. Maybe it is the spiral slide, or perhaps it is the stepped design that encourages kids to keep exploring, but whatever it is that draws kids, it is a fun-filled space for all. It offers an ADA transfer station and DTD step to provide access, it includes a trapeze ring horizontal ladder that is tough to ignore, and it even has a crawl tunnel, sliding pole, and more. A tic-tac-toe panel encourages kids to enjoy socialization during playtime, and the cozy spaces beneath some of the raised platforms are sure to become an attraction too. Ideally suited to kids aged 5-12, it has a use zone of 31'x41' and can hold from 30-34 kids at one time. It can be designed in your choice of colors and features some of the most long-wearing and durable components imaginable. You enjoy a 15-year warranty on many pieces and a lifetime warranty on the recycled posts.
