Age Group: 5 to 12 years

Capacity: 48-52

Footprint: 28' x 29'

Use Zone: 41' x 42'

Encourage kids to enjoy countless hours of active fun with the Crystal Springs recycled playground. One look shows you that it is a very dynamic space that offers kids ages 5-12 a wide array of choices and engaging spaces. The tri-rung horizontal ladder and the trapeze rings are classics, but with three covered play areas (including two raised platforms), kids of all ages will be constantly on the move. There is coil climber, driving panel, three different slides, several bridges, a rockwall, tic-tac-toe panel, and more. An ADA transfer station at one side allows all kids to enjoy time with friends, and the different game panels encourage socializing in addition to active fun. With its use zone of 42'x41', it can offer space for 48-52 kids at one time, and the durable design of the entire playground guarantees safety and fun. Long warranties on components and materials range from 15 years on some elements and a lifetime warranty on each recycled post.
