**Age Group:** 2 to 12 years

**Capacity:** 60-64

**Footprint:** 30' x 36'

**Use Zone:** 42' x 48'

Kids love castles, and the River Run playground is possibly one of the most inspiring of all castle themed playgrounds. It has five separate towers each topped with a castle roof, and with its use zone of 42'x48' it can accommodate from 60-64 kids in the recommended 2-12 year age range. There is something for everyone in this impressive playground, including a tri-rung horizontal ladder, trapeze rings, a lily pad bridge, curved slide, chain link climber, crawl tunnel, spiral slide, two veer slides, a rock play climber, and a long list of play panels and features meant to enhance that sense of being in a castle. There is an ADA transfer station to allow all kids to enjoy this wonderful setting, and the different panels and spaces below the tower and platforms are wonderful for socialization and hours of imaginative play. In addition to its impressive array of elements, this playground has also been crafted from long lasting materials. Offering up to 15-year warranties on some components, it also has a lifetime warranty for any of the recycled posts.
