Assembled Dimensions: 30" high x 10' long

Creating special quiet places in a classroom can sometimes prove to be difficult. The Angeles Sound Sponge 30" high x 10' long Quiet Divider is designed to make that task a little bit easier. The sound absorbent divider is flexible, lightweight and easy to move around so you can always easily change your set up if needed. The dividers have magnetic connectors that make it very easy to join multiple dividers when you need a larger space. Included with the divider are two support feet to ensure it stays where you put it. The support feet are made from super poly-carbonate covered steel. If you simply don't have the space to always keep the dividers out they feature a compact storage design. The dividers roll up and are secured with a strap. The Angeles Sound Sponge 30" high x 10' long Quiet Divider can be used with other size dividers to create a space that is as unique as your needs.
