Bring the love of music to the playground with the Recycled Plastic Chime Wall. This musical element features a sturdy recycled plastic frame. The chimes are different sizes, each playing a different note when hit. This allows children to not only play different notes at random, but to actually create a song or tune. Creativity is encouraged through song playing. The Recycled Plastic Chime Wall is a portable unit that is great for ages 2 to 12 years old. This age group really delights in creating sounds and this unit is the perfect outlet for their need of sound. They will also discover the different tones as they play. The Recycled Plastic Chime Wall is the perfect musical unit for your playground.
